**Teri Dunn : Garden Accessories: Designing with Collectibles, Planters, Fountains and More** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Garden Accessories: Designing with Collectibles, Planters, Fountains and More:

"Living in a cottage"...does the very thought inspire you? Turn the pages and picture yourself in today's cottage living. Head for the seacoast: a Cape Cod perched on an ocean bluff, or a quaint Gothic-Revival basking in island breezes. Then sample lakeside living, in a board-and-batten cabin or a contemporary rustic lodge. Experience the spacious skies of a country meadow, in an American farmhouse on a country road, a French stone chaumiere, or an English thatched-roof cottage. Then try an Adirondack mountain log home, or Swiss Alpine chalet. Alongside the entrancing photos, you'll see how to choose a setting and a style, then design, build, and furnish it. Helpful tips show how to decorate for comfort and personal expression. Don't miss the outdoor living ideas for screened rooms, porches, and decks. Even if you live in a city, you can bring the romance of cottage spirit to your life.
