Garden Art ReviewBy Katelyn ThomasIf you'd like to enhance your garden with some art, you may want to take a look at the book Garden Art by Mickey Baskett. From a charming ladybug stepping stone to a wonderful bird house row fence, this book is filled with ideas to make your own garden art.As you look through the book, you will find that most projects include step by step instructions and patterns. My favorite project is a breathtaking butterfly doormat. The variety of projects, from cutesy to country, means there is something for every style of garden.The book begins with a helpful section showing you stenciling techniques, how to prepare a surface for painting, and other paint related techniques. The majority of projects are painted, so this book may not be for you if you are looking for a way to add sculpture or other elements to your garden. However, there are

several mosaic projects and a few metal and glass projects. All in all, the book covers over thirty projects, with step by step instructions and clear photos. It is nicely done and has several very unique ideas.

From images of beautiful gardens decorated with creative art pieces to design advice and unique projects to make: all the practical and inspirational guidance any gardener needs to embellish the backyard is right here in this manual. Information on materials reveals which bases, paints, and other surface finishes can stand up to the elements, and how to apply them. Invaluable tips, accompanied by helpful photos, explain how to choose and situate artwork and other decorative objects. The charming projects include fountains, mosaics, painted furniture, pretty pots, watering cans, birdhouses, and birdfeeders.
