About the Author Michelle Marsh resides in East Tennessee with her husband and two children. She had a garden as a child and wanted to pass on the experience of gardening to her children. Starting with small planters on the porch, they moved on from there. She soon discovered that she needed a way to keep track of their accumulating garden information and to do it without using up precious space on the monthly calendar. In particular she needed a way to keep track of their garden activities - what they had done, when they had done it, and what still remained to be done. It would be great to have all that information in one place!
