Paul Wagland : Garden Landscaping Manual: A Step-by-Step Guide to Landscaping Building Projects in Your Garden before purchasing it in order to gage whether or not it would be worth my time, and all praised Garden Landscaping Manual: A Step-by-Step Guide to Landscaping Building Projects in Your Garden:

This practical manual explores the landscaping options available to the amateur gardener and describes practical projects that even a complete beginner could tackle, with each project clearly explained and illustrated step-by-step. It covers the full range of popular landscaping techniques, from laying paving and building walls to choosing plants and adding lighting, furniture and decorations. A beautiful, well-designed garden can bring many advantages: it can be a pleasure to look at, and is also a useful resource for entertaining and relaxing. Whats more, it can provide you with fresh fruit and veg, increase the security around your home, and even add a considerable amount to your homes value.

About the Author Paul Wagland read architecture at university. He worked for Permaculture Magazine, editing and writing on subjects ranging from green building and technology to social issues. He was editorial assistant on Pond Gardening magazine and was promoted to deputy editor within three months and editor before the end of the year. He

is now freelancing, and currently writes for a number of national gardening and building titles, as well as the local press. He is also an experienced photographer and supplied images for his two published books for GMC books - Paths Patios and Practical Allotments.
