David Soper : Garden Magic In Your Backyard! before purchasing it in order to gage whether or not it would be worth my time, and all praised Garden Magic In Your Backyard!:

1 of 1 people found the following review helpful. garden magicBy Jbarr5Garden Magic In Your Backyard!: The Experts tell you how.Like how this book starts out, what to expect by chapters: planning, pruning, etc. Never though of dividing my flower plants but it might be something I will be doing this fall as some bulbs have disappeared totally from the garden-they have no room.Liked the ideas of pruning and when depending on the tree/flower. Tools of the

trade was informative if you don't know the difference between some. So much information and easy to understand and follow to having the perfect gardens and lawn. 1 of 1 people found the following review helpful. A Great Gardening Companion! By Jim Well written, easy to read, and chock full of useful information. This book has everything from root division to insect management and balance. How to plant, what to plant, where to plant, and how to keep it alive and healthy. Its all covered with warmth and some humor, in a direct one to one style that makes you feel as if you have an expert consultant visiting your living room or garden. The chapter on mulching, alone, is worth the price of the book and I really loved the info about grasses. I highly recommend this book for your gardening shelf! 2 of 2 people found the following review helpful. Practical, engaging garden advice! By Momster This well-written book is like having a next door neighbor who generously shares gardening wisdom gained from many years of experience. David Soper is opinionated, funny, and describes what works and what doesn't in a way that is easy to apply to your own garden. Experienced gardeners as well as newbies will enjoy this book.

America's top garden experts provide the reader with dozens of solutions to problems in your garden. The how-to information is easy to follow and is garden-tested. In addition, comments and descriptions help the gardener select the right plant for the right spot. Recommendations of specific cultivars help assure putting Garden Magic in Your Own Backyard.
