David Stiles, Jeanie Trusty Stiles : Garden Projects You Can Build (The Weekend Project Book) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Garden Projects You Can Build (The Weekend Project Book):

Sm Quarto, , PP.151,

From Booklist This illustrated how-to paperback offers instructions for constructing 20 projects, the majority of which are built from wood. Some of them can be built in a day, and many require only basic hand tools. The book is aimed at woodworkers with an interest in gardening and at gardeners who have some carpentry skills. The projects include a bentwood trellis, an obelisk, a pergola, a rose arbor, a garden stool, a garden bench, a picnic table, and a covered seat. Under the heading of "Garden Ornaments" are a pinecone birdhouse, wind chimes, a kneeling stool, a potting bench, and a garden shower (for showering outside). A toolbox, a window box, a cedar planter, a garden cart, and a garden gate are listed under "Containers and Enclosures." There are also instructions on building a garden house and a potting shed, the two most complex projects. Along with step-by-step instructions, each project includes a list of the materials needed, shop drawings, and an illustration of the finished project. Some of the projects include color photographs. George Cohen About the Author David Stiles, a recipient of the ALA's Notable Children's Book Award, is a designer/

builder and illustrator who has written ten books. His playground designs have won two awards from the New York City Planning Commission. Jeanie Stiles has co-authored six books with her husband.
