Better Homes and Gardens : Garden Structures (Better Homes and Gardens Home) before purchasing it in order to gage whether or not it would be worth my time, and all praised Garden Structures (Better Homes and Gardens Home):

1 of 1 people found the following review helpful. Garden StructuresBy P DavisThis book is perfect for what I need. It shows different garden structures and how to build them. I was looking for a book that had ideas for my yard and this book fits my needs. I plan to use one of the designs. There are so many, it is hard to choose. The directions included for "how-to" are easy to understand, although I don't plan to build the structure myself. I will have it professionally built. I highly recommend this book.4 of 4 people found the following review helpful. If you are looking for start to finish plans don't buy this book.By Gregory A. KrauseWhen I purchased this book I was hoping to find instructions on building structures from start to finish. While this book has great photos of many different kinds of garden structures and some construction techniques it does not show you how to build anything from the ground up.5 of 5 people found the following review helpful. Great book. Great ideas.By hal3280I was looking to rebuild my existing 25 year old deck. I thought I wanted to incorporate some type of pergola or screen structure and this book gave me more ideas

than I could hope for! Great book with very clear instructions.
