Book by Gerhards, Paul

From Booklist Here's the ideal book for gardeners with a basic knowledge of woodworking. Gerhards offers detailed instructions for building 15 projects, including a window-box plant stand, a picnic table, an arched arbor, an Adirondack chair, a garden bench, a freestanding glider, and a small greenhouse. The projects range in difficulty; some can be built in a couple of days, but others take longer. A list of materials, diagrams, and a drawing or

photograph of the finished piece are included for each project. There are 95 drawings and 15 black-and-white photos.
