If you love gardening and love decorating I highly recommend it. Lovely, inspiring pictures make it worthwhile and a joy to read. I actually checked it out at my local public library before I bought it and then decided I just had to have my own copy. My husband said any book with "gardening" in the title was surely one I couldn't resist. The pictures inspire me.0 of 0 people found the following review helpful. Love this bookBy susanThis book is very enjoyable. It is filled with colorful ideas. I lost my copy due to water damage by Sandy and purchased it again. I would recommend this book.

This book shows how to create a peaceful, evocative garden dcor in any room of the home and in connected spaces such as porches, balconies, and breezeways. From sweepingly dramatic rooms to charming corners filled with

flowerpots, your love of gardens can be carried indoors to bring joy and beauty to the spaces where you live and work every day.
