Penelope Hobhouse : Garden Style before purchasing it in order to gage whether or not it would be worth my time, and all praised Garden Style:

2 of 2 people found the following review helpful. wonderfulBy B.BrndermannIt is a very intressting book with many wonderful photos intressting informationsabout plants and inspirations for my own garden .16 of 16 people found the following review helpful. a beautiful book full of design inspirationBy Sammy MadisonIf you are looking for a beautiful book full of ideas for perennial garden design, this is it. The book is full of great color pictures of absolutely gorgeous famous gardens. Although few of us have the space, time or money to have our own gardens of the size and caliber we see in this book, many of the ideas can be applied to the home garden. Not just a juicy coffee table book, both the text and photos offer much for those looking for inspiration about perspective, backdrop, texture, and all the elements of garden design.0 of 1 people found the following review helpful. Five StarsBy choyoungchilGoooooD

Designing and planting fine gardens is an art best learned by example. In this inspiring and beautiful book, the renowned Penelope Hobhouse - gardener, plantswoman, garden writer and historian - uses some of the finest gardens in the world to display how to lay out and plant natural, flower, patterned and formal gardens. From California to New York, West London to Normandy, each garden has been exquisitely photographed. In Garden Style, Penelope Hobhouse informs, advises and inspires on every aspect of garden design. She explains the importance of establishing a proper structure and how to create a successful small garden.

From Library Journal
Noted British gardener and historian Hobhouse provides a detailed and comprehensive picture of garden style, ranging from formal gardens to small gardens. Using as her examples many famous gardens of the world, Hobhouse illustrates how one can design all types of gardens; her extensive accounts of such gardens as Great Dixter and Villandry effectively demonstrate plant combinations and design essentials. Though she discusses garden design with great enthusiasm, Hobhouse also shows common sense in stressing the relationship of the garden to its environment. Highly recommended for all horticultural and most public collections. Daniel S. Kalk, St. Alphonsus Coll. Lib., Suffield, Ct. Copyright 1988 Reed Business Information, Inc. 'It is lovely to look at, but has at least as much to delight the mind as it does the eye.' Country Living
About the Author
Penelope Hobhouse is internationally-renowned as a garden designer, writer and historian. She holds the Victoria Medal of Honour, the highest award of the Royal Horticultural Society. She has also received the Lifetime Achievement Award of the Guild of Garden Writers and a Quill and Trowel Award from the Garden Writers Association of America.
