**Jonathan Edwards : Gardener's Directory of Shrubs Climbers: A practical guide to choosing the best shrubs and climbers, with over 250 stunning plant portraits** before purchasing it in order to gage whether or not it would be worth my time, and all praised Gardener's Directory of Shrubs Climbers: A practical guide to choosing the best shrubs and climbers, with over 250 stunning plant portraits:

0 of 0 people found the following review helpful. Incorrect zonesBy P. OlsonI was very excited to get this book. Pretty pictures and good discriptions of plants.Unfortunately, almost everything is zoned 7-8. Many of these plants grow all

the way to zone 3 and they are still listed zone 7-8. Maybe I missed something and they rezoned the United States and we only have two zones now!

The book provides a wonderful visual reference source for choosing the best shrubs and climbers. Alphabetically organized, the guide serves as a quick reference for the best shrubs and climbers to grow in the garden according to all their various characteristics.
