Identification (A Year in Wildflowers) (Volume 1):

Gardeners Guide to April Wildflowers includes twenty common early spring woodland wildflowers with photographs. This field guide allows easier identification of wildflowers in the field because it is composed only of the earliest wildflowers of the season, the wildflowers that begin bloom in April or late March. It is the first book in the A Year of Wildflowers series that will portray the wildflowers of Indiana as they progress throughout the year. This book commences the series that will end with the October flowers. There will be at least twenty flowers and photographs in each book in the series.
