The Home Depot : Gardening 1-2-3 (Home Depot 1-2-3) before purchasing it in order to gage whether or not it would be worth my time, and all praised Gardening 1-2-3 (Home Depot 1-2-3):

Would highly recommend for any new homeowner. I ordered a 'used' copy, and it has already paid for itself many times over. Every plant/bush/tree imaginable has details descriptions, care, uses, growth rates, styles and more. Also talks about zones, times to plant, ways to group for color all year, how to take care of pruning, bulbs, seed propagating, problem solving, garden pests; etc, etc. etc. I also have several other gardening books from , which have great ideas and beautiful pictures; they read more like a magazine ... but this one will be my go-to for years to come.1 of 1 people found the following review helpful.
