It tells you quite clearly what tasks should be done for that day.I have planted by the moon/planet positions and I have planted by random convenience. Planting by the moon/planets seems to actually work better for me.0 of 0 people found the following review helpful. Five StarsBy catererSuch a cool calendar loaded with useful info. Gardening by the Moon 2017 is a planting guide that will help make your garden more productive and beautiful. It shows the best activity for each phase and astrological sign of the moon. The planting lists are specific for your climate, telling when to start seeds indoors in flats or plant directly into the garden. Each month has garden tips

keeping you on top of the many tasks through the year. All this information is presented in an easy to read wall calendar format. This planting guide is for a Medium growing season, average expected frost free dates April 15 to Oct. 15. Three different versions are available: look for Gardening by the Moon 2017 for a Long, Medium or Short growing season.
