Wendy Tweten, Debbie Teashon : Gardening for the Homebrewer: Grow and Process Plants for Making Beer, Wine, Gruit, Cider, Perry, and More before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gardening for the Homebrewer: Grow and Process Plants for Making Beer, Wine, Gruit, Cider, Perry, and More:

Forget farm to table - go from garden to glass! There's no feeling quite like cooking with home-grown carrots or grabbing a fresh handful of cilantro from your own yard. Well, unless you're growing fruits, vegetables, or grains for

brewing that is. Gardening for the Homebrewer is an introduction to the wide variety of plants that you can use for fermentations or infusions. Learn how to tell if your yard is a perfect site for barley or whether it's better suited to a fragrant collection of herbs. Learn how to grow, dry, and store fresh hops. Or go off the beaten path and grow everything you need for your first gruit, cider, perry, or fruit wine. Have just a balcony or a windowsill? No problem! A variety of plant recommendations will suit gardeners of all types, even ones with limited space.
