Under glassBy rev tNot had a chance to actually read it but it appears to be craed with info on a terrariu and the way to construct one0 of 0 people found the following review helpful. Good intro to greenhouse growingBy Alta A. WintersThis book has all the info you need to start a successful greenhouse program. Lots of good photos and explanations of various topics. There is some reference to using various chemical sprays and poisons which should be avoided, but overall, a great book.
