Jerome A. Eaton : Gardening Under Glass before purchasing it in order to gage whether or not it would be worth my time, and all praised Gardening Under Glass:

0 of 0 people found the following review helpful. Under glassBy rev tNot had a chance to actually read it but it appears to be craed with info on a terrariu and the way to construct one0 of 0 people found the following review helpful. Good intro to greenhouse growingBy Alta A. WintersThis book has all the info you need to start a successful greenhouse program. Lots of good photos and explanations of various topics. There is some reference to using various chemical sprays and poisons which should be avoided, but overall, a great book.

This book has basic how-to about growing everything, to constructing greenhouse and maintaining climate is in this book with lots of photographs to show you what the author is talking about.
