From Brand: CRC Press : Genetics, Genomics and Breeding of Potato (Genetics, Genomics and Breeding of Crop Plants)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Genetics, Genomics and Breeding of Potato (Genetics, Genomics and Breeding of Crop Plants):

In this volume, world leaders in potato research review historical and contemporary discoveries resulting in a range of advances. Topics include nutritional quality, yield, disease and insect resistance, processing, plant growth and development, and other aspects. The book also examines research yielding significant molecular resources that facilitate breeding, linkage and gene mapping, cytology, functional and structural genomics, proteomics, and metabolomics. Future research developments that are likely to significantly advance efforts to understand and improve the potato are also explored.

About the Author James M. Bradeen: University of Minnesota, Department of Plant Pathology, St. Paul, Minnesota, USA C. Kole: Department of Genetics and Biochemistry, Clemson University, Clemson, SC, USA Visit the authors' webpage at: <http://ppg.cfans.umn.edu/home/home.htm>
